

Geomorphological mapping and geovisualization

Group poster

As a result of your group work during the workshop, you have to prepare one A3 poster on Illustrator or Corel including:

1. general title and subtitle(s)
2. your geomorphological map
3. your 2.5D visualization of the same area
4. a description of the study area (where is it, what kind of geomorphological settings: be short!
5. a brief explanation/interpretation of the landscape (simple chronology, presentation of the main processes). You can use the visual media you have and put for examples number/points/text on it
6. a small text describing your methods, your difficulties and what could be improve on your map.

The poster has to be aesthetical and effective for communication. It will be presented orally on Friday afternoon. Please send a PDF of your poster. If you give it on Thursday evening, it will be printed for Friday. Otherwise, you can show the PDF on screen only.
